

NCUK & UKINETS Pump-priming grant

We are pleased to announce the 2023 round of the NCUK & UKINETS pump-priming grant in support of neuroendocrine cancer (NC) research.

Aim

The aim of this grant is to provide pump-priming funds to support research projects designed to improve outcomes for patients with neuroendocrine cancer.

Application criteria for pump-priming grant

All projects must fulfil the following criteria and will be judged against this:

- Proposals from researchers in all relevant fields of NC research in the UK & Ireland.
- Research projects must improve outcomes for patients with neuroendocrine cancer.
- Potential to lead to more substantive funding.
- A robust outcome measurement.
- Ambitious proposals that encourage collaboration between centres are encouraged.
- The funds are to be used to cover research costs but not travel expenses, salaries or major equipment. This grant is not to be utilised as part of a bigger research programme.

Amount

One grant of up to £30,000 will be awarded.
