

## Neuroendocrine cancer: a ready-made solution to put patients first

### Invitation for Parliamentary Staff

Wednesday 14 June 2023, 12:45-14:00 BST.  
Portcullis House, 1 Victoria Embankment, London SW1A 2JR.

***A light lunch will be provided during event.***

**Come and pledge your support for earlier diagnosis and more equitable treatment for people with neuroendocrine cancer – the time to act is now!**

Neuroendocrine cancers are the 10th most prevalent cancer in England, and people with neuroendocrine cancer currently face significant inequities across the entire continuum of care.

This event will introduce you to neuroendocrine cancer, highlight the widely endorsed *Neuroendocrine cancer: an ideal patient care pathway*, and allow you to show your support for the NHS and for your constituents living with this condition.

Uptake of the care pathway will help alleviate pressure on GPs, standardise care, reduce the cost burden to the health system, and ensure that people with neuroendocrine cancer benefit from ongoing initiatives to improve cancer care across the UK. The pathway supports the UK Rare Diseases Framework and the NHS Long Term Plan's goal of significantly improving cancer diagnosis and treatment within the next five years.

**We hope you can drop in and show your support for this event! Please let us know whether or not you are able to attend, by completing an RSVP [here](#).** The event is being hosted by Rt Hon Justin Madders MP, and will feature:

- 12:45-13:15 Introduction to neuroendocrine cancer and the patient care pathway, with Olivia Williams, star of *The Crown* Season 5, speaking to her lived experience
- 13:15-14:00 An opportunity to showcase your support and learn more by speaking to people with experience of neuroendocrine cancer

The care pathway was developed by [Neuroendocrine Cancer UK](#) and [The Health Policy Partnership](#) in collaboration with patients, patient advocates, clinicians and industry representatives. If you have any questions, please do not hesitate to contact us.
